

# Asthma Inhalers

**Key**  For best results, the inhalers with this icon should be used with a spacer or chamber.

## Controller Medicines

Prevent and control asthma symptoms

<b>Advair® Diskus®</b> Approved generic available: Fluticasone propionate/salmeterol 	<b>Advair® HFA</b> 	<b>AirDuo Respiclick®</b> 	<b>Alvesco®</b> 
<b>Arnuity® Ellipta®</b> 	<b>Asmanex® HFA</b> 	<b>Asmanex® Twisthaler®</b> 	<b>Breo® Ellipta®</b> 
<b>Fluticasone propionate diskus</b> Approved generic of Flovent® Diskus® 	<b>Fluticasone propionate</b> Approved generic of Flovent® HFA 	<b>Pulmicort Flexhaler®</b> 	<b>QVAR® RediHaler™</b> 
<b>Serevent® Diskus®</b> Add-on controller. Must be taken with other prescribed controllers. 	<b>Spiriva® RespiMat®</b> 	<b>Trelegy Ellipta®</b> 	<b>Wixela Inhub®</b> 

May be taken every day for best results. Some controllers have just one medicine and others have two or three medicines.

## Quick-Relief Medicines

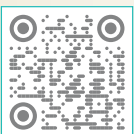

Taken as needed and work quickly to relieve symptoms

<b>Airsupra®</b> Also contains an inhaled corticosteroid 	<b>Albuterol sulfate</b> 	<b>Albuterol sulfate</b> Generic of ProAir® 	<b>Atrovent® HFA</b> 
<b>Combivent® RespiMat®</b> 	<b>ProAir® RespiClick®</b> 	<b>Proventil® HFA</b> Generic available: albuterol sulfate 	<b>Ventolin® HFA</b> Generic available: albuterol sulfate 
<b>Xopenex HFA®</b> Generic available: levalbuterol tartrate 	If you have asthma symptoms more than two times per week, tell your doctor. This is a sign your asthma is not controlled.		

## Combination Controller and Quick-Relief

Both types of medicines in one inhaler

<b>Breyna™</b> Generic of Symbicort® 	<b>Dulera®</b> 	<b>Symbicort®</b> Generic available: budesonide/formoterol fumarate dihydrate 	These are used for both short-term relief and long-term control.
